

Learning Path Certificate

Qt Academy

This certificate is awarded to
SeifAllah Kishtah

You have successfully completed
Automated Testing with Squish

During this path, you have explored core workflows to build and deploy automated GUI testing. You have created an array of test cases using a variety of synchronization methods. You have also examined different ways to test applications, from using external data, to building Behavior-Driven testing for agile development.

Completion Date:
17/01/2025
